2. Enter valid username and password
3. Click on the sign in button
4. Click on the a compose button
5. Click on the attach icon
6. Select the files to be uploaded with the window based pop up.

Q.3 How during Regression u will run only 200 Test Cases out of 500 Test Cases?

Q.4 What are Include and Exclude Methods in TestNG with example?

Q.5 Modifiers in Java(Protected Access Modifier). With Example?

Q.6 Please Explain all Java Access Modifiers?

Q.7 How to do Dropdown handling in WebDriver?

Q.8 How to do mouse hovering on webElement of an application using WebDriver?

Q.9 How to take screenshot in WebDriver?

Q.12 What is Encapsulation in Java? Explain With Example?

Q.13 What are benefits of Encapsulation?

Q.14 Java try block

Q.15 Syntax of java try-catch

Q.16 Syntax of try-finally block

Q.17 Java catch block

Q.18 Problem without exception handling

Q.19 Solution by exception handling

Q.20 Internal working of java try-catch block

Q.21 How many catches & finally possible with one try and what will be the syntax

Q.22 What is final, finally and finalize() in JAVA - When to use What

Q.23 Use of final, finally and finalize?

Q.24 Examples of final, finally and finalize?

Q.25 Example of checked Exception in Java API?

Q.26 Example of unchecked Exception in Java API?

Q.27 Difference between Checked and Unchecked Exception in Java?

Q.28 Difference between throw and throws?

Q.29 Explain Java throw example?

Q.30 Explain Java throws example?

Q.31 How to do Java Multiple Catch Blocks? Explain with Example?

Q.32 Difference between JDK, JRE and JVM ?

Q.33 Is Empty .java file name a valid source file name?

Q.33 Is delete, next, main, exit or null keyword in java?

Q.34 If I don't provide any arguments on the command line, then the String array of Main method will be empty or null?

Q.35 What if I write static public void instead of public static void?

Q.36 What is the default value of the local variables?

Q.37 What is difference between object oriented programming language and object based programming language?

Q.38 What will be the initial value of an object reference which is defined as an instance variable?

Q.39 What is Constructor in Java?

Q.40 What are rules for Creating Java Constructor?

Q.41 What are types of Java Constructors?

Q.42 What is Syntax of Default Constructor?

Q.43 Is Empty .java file name a valid source file name?

Q.44 Is delete, next, main, exit or null keyword in java?

Q.45 If I don't provide any arguments on the command line, then the String array of Main method will be empty or null?

Q.46 What if I write static public void instead of public static void?

Q.47 What is the default value of the local variables?

Q.48 What is difference between object-oriented programming language and object based programming language?

Q.49 What will be the initial value of an object reference which is defined as an instance variable?

Q.50 What is Constructor in Java?

Q.51 What are rules for creating Java Constructor?

Q.52 What are types of Java Constructors?

Q.53 What is Java Default Constructor?

Q.54 Give an example of Java Default Constructor?

Q.55 What is the purpose of Default Constructor?

Q.56 Give an example of Default Constructor that displays the default values?

Q.57 What is Java parameterized constructor?

Q.58 Why use parameterized constructor?

Q.59 Give an Example of parameterized constructor?

Q.60 What is Constructor Overloading in Java?

Q.61 Give an example of Constructor Overloading?

Q.62 What are Differences between constructor and method in java?

Q.63 Does constructor return any value?

Q.64 Can constructor perform other tasks instead of initialization?

Q.65 Is constructor inherited?

Q.66 Can you make a constructor final?

Q.67 Please explain Java Static Keyword?

Q.68 What is Java Static Variable?

Q.69 What are advantages of static variable?

Q.70 Example of Static Variable?

Q.71 Write a Program of counter without static variable?

Q.72 Write a program of counter by static variable?

Q.73 Please explain Java static Method?

Q.74 Give an example of Java static method?

Q.75 An example of static method that performs normal calculation?

Q.76 What are restrictions for static method?

Q.77 Why java main method is static?

Q.78 What is Java static block and example of static block?

Q.79 How to handle Multiple Browsers in Selenium Webdriver?
